ABOUT US

Most welcome to Sarvottam Decor Limited dynamic, professionally managed, Interior Infrastructure Company located at Morbi, Gujarat.

We at Advance Laminates are highly equipped with the ultra modern machinery to change the notion of laminates industries by creating new perception of high-pressure decorative laminates with a wide range of beautiful colors, exotic designs and unique performance features, you're sure to find range of laminates fitting your surfaces with style. Superior Japanese technology ensures them to become more everlasting among the contemporaries.

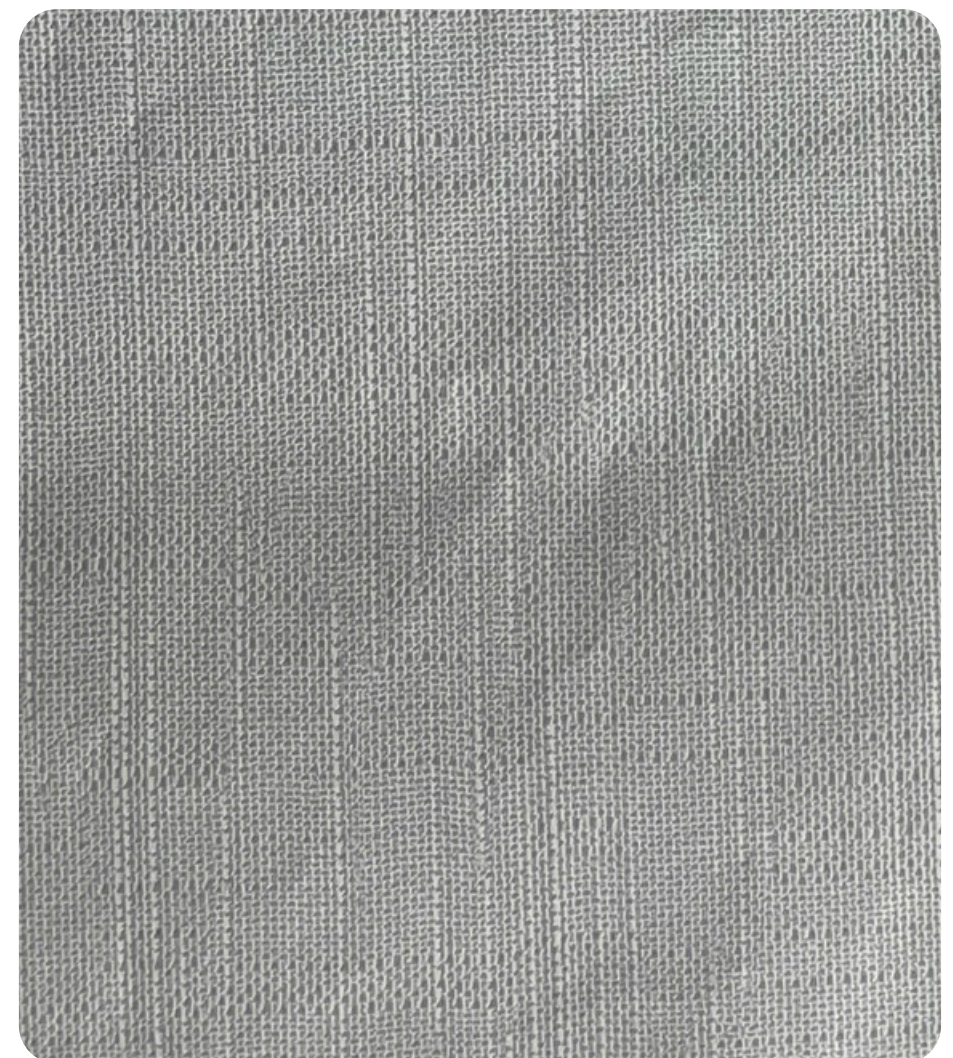

Understanding the elements of every day changing patterns, new stylish plans, shadings, and surfaces when combined with contemporary and advanced methodology are presented, because of requests of present and future interior design trends.

We help you build your home decor in such a way that they reflect confidence with components that influence your work-life spaces and mirrors the soul of your development.

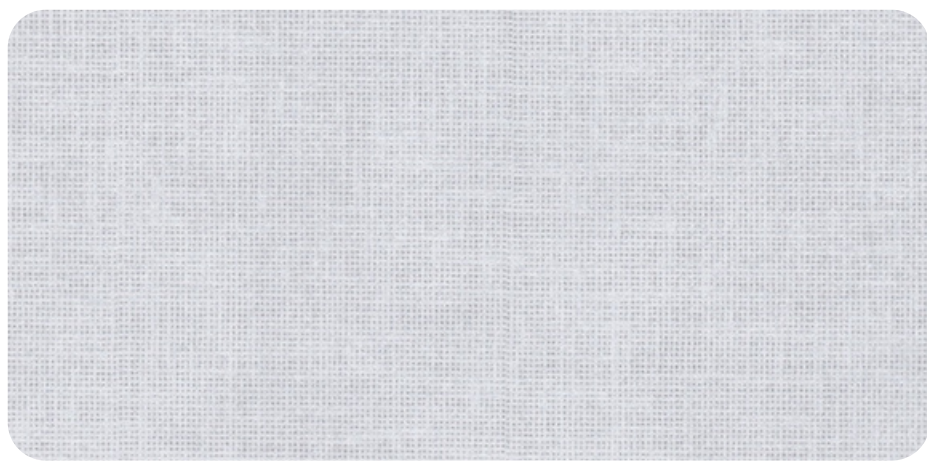

LINEN

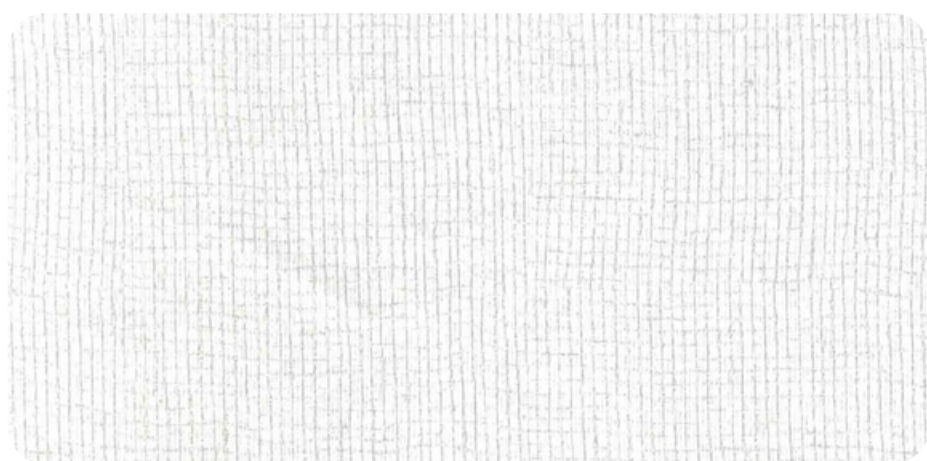

Linen is a textile made from the fibers of the flax plant. The fiber is very strong, absorbent, and dries faster than cotton. Because of these characteristics, garments made of linen are valued for being comfortable to wear in hot weather. Many other products are also made from linen.

TEAK

The reason is that teak is valuable both for its elegance and its durability. Beyond its beauty, it also possesses some natural properties that other woods don't have. Teak has always been a prized material. The tree that teak comes from, Tectona grandis, is native to the tropics.
